Education

Columbia University School of Engineering and Applied Science

Sept. 2013 - May 2017 | New York, NY

B.S. Computer Science

Valedictorian Class of 2017, Summa Cum Laude, Tau Beta Pi

Work Experience

Votem, Lead Front-End Engineer, Online Voting Team

Sept. 2017 – Feb. 2019 | Cleveland, OH

- Architected election administration platform for government and private customers using React and Redux, allowing election officials to manage all aspects of the voting process.
- Built voter facing application with multi-language ballots, accessibility features, and a customizable UI.
- Developed Votem's JavaScript SDK which was responsible for RSA-AES encryption and decryption of votes and interfacing directly with Votem's Hyperledger Sawtooth Blockchain for vote submission.
- Streamlined election management process through self-service tools for election customization, ballot creation, UI design, vote data visualization, and AWS hosting cutting election deployment time from days to hours.
- Managed two Front-End Engineers, prioritizing, assigning, and reviewing their work to maximize productivity and their professional growth.
- Designed, prototyped, and implemented user experiences and interfaces using Photoshop and Sketch.

Columbia User Interfaces Lab, TA & Research Assistant

Sept. 2016 – May 2017 | New York, NY

- Created multi-device augmented reality applications in Unity to help Art History grad students explore medieval artistic and scientific processes using a HoloLens and Google Tango.
- TA'd an upper level 3D User Interface course taught in Unity spring semester.

Facebook, Software Engineering Intern

May 2016 - Aug. 2016 | Menlo Park, CA

- Developed spam fighting and malicious content infrastructure in Haskell.

Columbia Emerging Scholars Program, Instructor

Feb. 2016 – May 2016 | New York, NY

- Taught and developed curriculum for one-credit survey of advanced topics in computer science to freshmen.

Vibrant Composites, Summer Intern

June 2015 – Aug. 2015 | Cambridge, MA

- Prototyped and developed embedded components for use in a haptic feedback device.
- Designed and fabricated in-house manufacturing equipment for small-scale production.

Volunteering

Microsoft TEALS (Technology Education And Literacy in Schools) , Teaching Assistant

September 2018 – Present | Cleveland, OH

- Teach AP CS course twice a week with teacher, assist students with programming assignments.

Skills & Interests

Skills: React, JavaScript, Web Design, Web Development, HTML, CSS, Unity, Vuforia, Python, OpenCV, Flask, D3, Product Design

Interests: Backpacking, Figure Drawing, Painting, Windsurfing, Singing.
